

Global Presence

Daifuku currently has affiliate companies and offices operating in more than 20 countries and regions.

Daifuku's Global Production Sites

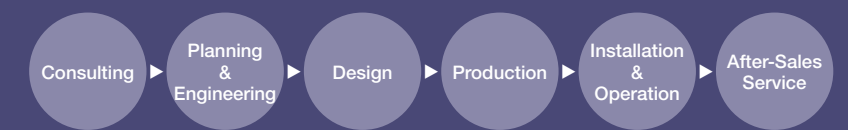

Daifuku's Total Solution

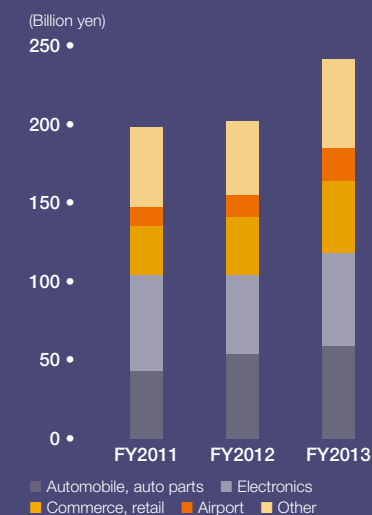

Daifuku provides solutions ranging from consulting to after-sales service.

As a leading material handling manufacturer, Daifuku's mission is to develop unique cutting-edge systems for each customer. Our recent achievements include the creation of a distribution center compatible with supply chain management and transport systems in clean rooms for manufacturing semiconductors and flat panel displays.

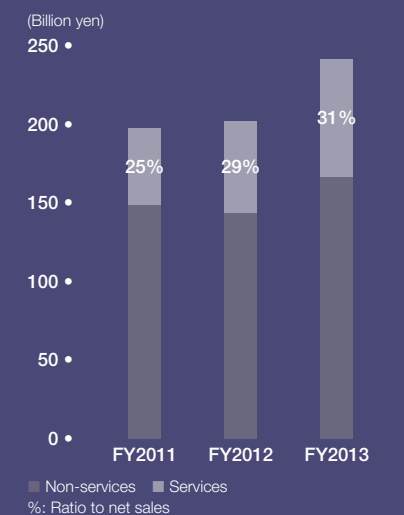

Daifuku assists customers from planning to proposal, design, manufacturing, installation, after-sales service, and facility retrofits.
