

Corporate Social Responsibility (CSR)

Daifuku undertakes a variety of CSR to be a company that supports society and the future.

Daifuku Eco-Products Certification Program

Daifuku is aware of the importance of environmental considerations in its business management and endeavors to enhance its environmental efforts in all aspects of corporate activities. As a measure of its CSR activities, the Company has implemented the Daifuku Eco-Products Certification Program, which rates and certifies products based on in-house standards, and now has 15 certified products. The program, which started in November 2012, rates every product manufactured within the Daifuku Group in the following terms: energy saving, recyclable, lightweight, long life, resource saving, water saving, low noise, clean water preservation, and harmful substances reduced.

Daifuku Joins the United Nations Global Compact

In April 2014, Daifuku signed a commitment to join the United Nations Global Compact (UNGC), which sets forth Ten Principles concerning human rights, labor, environment, and anti-corruption. The commitment was accepted by the United Nations, and Daifuku became an official member of the UNGC.

The commitment is a part of Daifuku's CSR efforts to enhance disclosure of information concerning its environmental, social, and governance activities and as a declaration in support of the UNGC initiatives.
