FOR IMMEDIATE RELEASE

May 10, 2024

Daifuku Co., Ltd. (Securities code: 6383, TSE Prime)
 Representative: Hiroshi Geshiro, President and CEO

Partial Revision of the Daifuku Environmental Vision 2050

Osaka, Japan – Daifuku Co., Ltd. has revised the 2030 targets in the Daifuku Environmental Vision 2050, which was announced in May 2023.

Regarding one of our critical issue areas, addressing climate change, we have upwardly revised our 2030 Scope 1 and Scope 2 reduction targets (compared to FY2018) from 50.4% to 60%, as we expect to achieve the targets we set in May 2023 ahead of schedule. In addition, we have set a new target for the percentage of electricity derived from renewable energy sources.

Also, with regard to coexisting with nature, to emphasize more effective awareness-building throughout the Group through the Sustainability Action Program*, we have revised the target from number of participants to a qualitative goal.

*Daifuku's unique program for sustainability awareness and training

■Revisions (**new additions in bold**)

Crucial issue areas	KPI (Key Performance Indicators)		Targets	
	Current	Revised	Current	Revised
Addressing Climate Change	Daifuku CO ₂ emissions (Scopes 1 + 2)	No change	50.4% reduction (compared to FY2018)	60% reduction (compared to FY2018)
	—	Percentage of electricity derived from renewable energy sources	—	80% Daifuku Japan is expected to achieve 100% by 2027

Coexisting with Nature	Sustainability Action total annual number of participants	Global expansion of Sustainability Action	30,000 people	Program expansion and awareness raising
------------------------	---	---	---------------	---

The Group will fulfill its corporate responsibilities and take concrete actions at a higher standard in order to achieve our goals and realize the future society we aim to create.
