**Notice Regarding the Acquisition of Shares in EISENMANN GmbH (Germany)**

Daifuku Co., Ltd. (the "Company") hereby announces that its board of directors resolved on April 17, 2026, to acquire the shares of EISENMANN GmbH ("EISENMANN"), a Germany-based company, and to make it a subsidiary, as described below.

**1. Purpose of the acquisition**

Based on its long-term vision, "Driving Innovative Impact 2030," the Daifuku Group (the "Group") is working to expand its businesses outside Japan and strengthen its competitiveness. In the automotive production line systems business, which represents a core business of the Group, the ability to provide end-to-end support—from proposal and design through start-up—tailored to European standards and customer-specific requirements is becoming increasingly important.

Against this backdrop, the Company has decided to welcome EISENMANN into the Group to strengthen and expand its system solution capabilities compliant with European standards and to reinforce its business foundation in the European market. EISENMANN possesses advanced automation technologies and proprietary solutions that reduce environmental impact, primarily serving European automotive and industrial components manufacturers. EISENMANN's business is highly complementary to the Group's existing businesses, particularly in the field of industrial painting and surface treatment systems.

Through this acquisition, the Group expects to broaden the range of proposals and enable higher value-added integrated offerings in the automotive production line systems field, leading to increased value provided to customers and expanded order opportunities. Accordingly, the Company has determined that this acquisition will contribute to the Group's medium- to long-term growth and the enhancement of corporate value.

## 2. Overview of the subsidiary (EISENMANN) to be acquired
