

# Many Jobs-One Cart **LEVEL CART**

**DAIFUKU  
LEVEL CART  
EQUIPMENT DESIGNED  
FOR YOUR HEALTH**

This work cart can always keep goods at a certain height so as to enable people to work far more easily and comfortably than otherwise. This cart was designed to be gentle to workers in pursuit of ergonomics.

**DAIFUKU**

# DAIFUKU is concerned with human engineering.

## Fine, lightweight and smart...the New Level Cart.

Models LVC-04C5, LVC-07C3&LVC-20C3

### Plastic table

Surpasses conventional steel because it does not corrode and is easy to keep clean.

### Responsive leveling

The revised internal mechanism responds three times as quickly as the previous model.

### Easy setting of Load Weight Keys for load height adjustment

The keys are laid out logically on the back of the upright.

### Smart design and color

The two-tone gray design is both bright and warm. The aluminum die-cast and plastic structure fits into any work site.

The load is kept at the most convenient height, to reduce loading and unloading strain.

This cart saves carrying, loading and unloading time and labor.
